Alicia Page:

I actually worked as a paralegal for 11 years. So I work with a lot of different attorneys in different counties. They many times lack the timely response that you want.

Alicia Page:

My name is Alicia Page. I live in Levy County, Florida. I work as a professional guardian and fiduciary. I came to the Miller Elder Law Firm with an exploitation case for one of my wards who had been exploited by a relative and he would not comply and return property that he stole and we went to court and were able to get a satisfactory outcome.

Alicia Page:

Shannon came highly recommended, and I knew that she was a leader in the field. I've been very happy working with Shannon and her team. They all do a great job and are really good with communication. Shannon was extremely well-prepared for the court appearance and giving the testimony and background with all the statutes and everything. She outlined everything. And had all her backup documentation with her. Shannon is smart and spunky and able to see right through all the garbage to what the real problem was. I would recommend anybody that's having issues in the elder law realm to obtain the Miller Elder Law Firm to help sort out issues.
