

Rachel Munsell:

I am the office manager here, so that means I handle all of our behind the scenes things. I do our billing, handle the scheduling, any kind of office ordering that we need to do. Just kind of making sure everything runs smoothly. I love working with our office staff and with our clients. Our clients are always super awesome and it's great to make their day and see them feel so relieved when whatever we're doing for them is done. Whether it's getting their estate planning in place and then they can walk out the door knowing that everything is handled or helping them through a tough litigation matter and then finally seeing a good outcome. It's all just rewarding to see a client happy at the end of the day.

Rachel Munsell:

The biggest compliment that I have received from a client, is that I make their day because I am always somebody who is smiling and happy to see a client. I would say the most rewarding part about working here is seeing families come together and work hard to get their estate planning done, be happy and just to be able to openly communicate. We have a great group of people here that are here to help.
